Gabriel Brau

Canson® Infinity papers help me to to express myself to the full as a photographer. The quality, commitment and compliance with the highest printing standards of my work have been respected for a long time. Fo black and white photography, my favourite paper is the Canson Infinity PrintMaKing Rag 310 g/m² This medium has an extraordinary print rendering quality; deep blacks and pure whites with a wide range of tones. For my colour photographs, I use Canson Infinity Baryta Photographique 310 g/m² which reproduces the perfection, hue, luminosity and saturation of the colours of my image.
